## SUMMARY

Current Information Technology student specializing in Application Development and Full Stack Web Developer with a passion for Front End Development. Enjoys building applications that are user-friendly and can make things a little more convenient for the user in their day to day life. Works efficiently to accomplish my given task and aids others when help is needed.

## TECHNICAL SKILLS

**Program Languages:** Java

**Database:** MySQL, NoSQL, MongoDB, GraphQL, Apollo

**Web Design:** JavaScript, HTML, Node.js, CSS, Bootstrap, Express, Object-Oriented Programming, React, Vite, jQuery, Rest APIs, Handlebars, Sequelize, Full Stack Development, Front-End Development, Back-End Development, Figma

## PROJECTS

**Recipedia** | <https://github.com/ruggerheist/recipedia> |  
<https://ruggerheist.github.io/recipedia/>

Recipedia is a website where the user can look up a food item and be given a list of 10 recipes to choose from where they can get the instructions, ingredients needed, and the nutritional facts for each ingredient. My responsibility in this project was to get local storage to save and display each food search by the user, making sure repeats were not displayed twice in the history. Also contributed a bit in the styling as I worked on making the website responsive to different screen sizes. Recipedia was built using HTML, CSS, JavaScript, and alongside with a recipe and nutrition api.

**Bookbusta** | <https://github.com/Nneifem/bookbusta> |  
<https://bookbusta-950538aa625f.herokuapp.com/>

Bookbusta is a website for users to create an account, be able to look up books by title or genre, save them to their favorites, leave comments on the book, and review comments left by others. My responsibility was to get the book api to display the book information wanted and search book by genre to work properly. The tools used for Bookbusta were the book api, axios, bcrypt, dotenv, express, session, handlebars, sequelize, mysql2, and bootstrap, JavaScript.

**Corbin's Portfolio** | <https://github.com/Nneifem/corbin-portfolio> |  
<https://corbinportfolio.netlify.app/>

Corbin's portfolio is a website documenting all of her past, current, and future projects she is working on musically and on her YouTube channel. The user can also view all her

social media and access her Etsy link. My responsibility was to represent my client's personality through the portfolio with the given criteria she wanted added to the website, but given creative freedom. The tools used for the portfolio were HTML, JavaScript, CSS, react, and bootstrap.

## EXPERIENCE

### **Personal Shopper Walmart**

2019 – Present  
East Greenville, PA

- Team environment
- Fast paced environment
- Customer service
- Problem solving
- Adapting to new changes
- Learning about other departments
- Paying attention to details

## EDUCATION

**Information Technology B.S. Application Development:** Penn State Lehigh Valley, Center Valley, PA  
September 2024 - Present
